BIZTECH HEALTHCARE SOLUTIONS INC. PARTNERS WITH MORRISEY ASSOCIATES

PISCATAWAY, N.J., (Feb. 17, 2011) -- BizTech Healthcare Solutions Inc. (www.forbiztechhealth.com), an award-winning provider of innovative business process solutions for healthcare and a Microsoft® Gold Certified ISV Managed Partner, has signed a partnership agreement with Morrisey Associates Inc., the industry leader in providing integrated Web-based care management and credentialing software solutions.

Morrisey will sell and sublicense BizTech's **ProMed DM** and **Workflow** software. Morrisey will integrate the software, including the **ProMed Enabler**, into its Morrisey Concurrent Care Manager™ (MCCM™) system's documentation review process, enabling care managers to easily capture and store images of patient-related data and reports from other systems. The information can then be stored for integrated reviews.

"Since BizTech's inception in 2000, the company has been on the forefront of data capture," says Bryan Donovan, Sales and Marketing Manager for BizTech Healthcare Solutions Inc. "ProMed Enabler provides the linkage for MCCM users, allowing patient care data—regardless of its source—to be easily captured and stored for integrated review within ProMed DM or MCCM."

Adds Jim Nutter, President of Morrisey: "We're excited about our new partnership with BizTech. It will enable our care management customers to easily collect and store key clinical documentation and reports

electronically. This new capability will reduce tedious manual documentation and paper-based scanning that is now required to capture and report this information.”

About BizTech Healthcare Solutions

BizTech Healthcare Solutions Inc. offers its ProMed Series of revenue cycle management solutions throughout the United States and the Caribbean. This award-winning application suite reduces operating costs and increases cash flow and compliance. Solutions include ProMed Enabler, ProMed Scanning, ProMed DM (Document Management) and ProMed Workflow. In addition, BizTech provides sophisticated process automation solutions including HIM Charge Entry & Coding, Chart Management, Verbal Orders, Release of Information, Patient Registration Scanning with Secure ID, Remittance Scanning with Recomposed EOBs, and AP processing. The company also provides imaging hardware components and service contracts. Visit www.forbiztechhealth.com
