ProMed Series
by BizTech Healthcare Solutions, Inc.

ProMed *Stat!*
Be up and running...Stat!

Capture, manage, and access your patient charts with ease

Get started scanning & storing your paper records fast with **ProMed *Stat!***

Capture it
Patient's driver license and insurance cards, medical records, encounter forms, billing documents, etc. can all be easily scanned into **ProMed *Stat!*** with a scanner that fits your office's needs. There are virtually no limitations on what can be stored in the system.

Manage it
Built-in security restricts access to authorized staff only. All manual activities associated with paper charts are eliminated. Organize your electronic patient charts exactly like your paper records using **ProMed *Stat!*** file cabinets, folders, inboxes, sticky notes and rubber stamps. Built-in user access tracking provides a trail for HIPAA auditing.

Access it
Patient charts are a click away. Search for documents by patient, physician, date or document type. All authorized users can access the chart at the same time; no more waiting for others to finish with the chart.

- ☑ **Fast Install**
- ☑ **Low Startup Cost**
- ☑ **Foundation for Future, No Throwaway**
- ☑ **Easily Upgradable**
- ☑ **Your Server or Ours (SaaS/Hosted)**

Add additional Scan Stations or customize your **ProMed *Stat!*** system using the optional Workflow module.

Patient Chart Conversion Services

We have partnered with document conversion service providers throughout the country to provide a fast, efficient and secure means of converting all your paper charts into digital patient records.
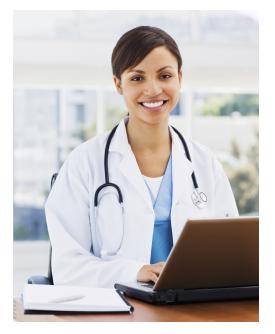

Interoperability and integration with your Practice Management System & Electronic Health Record systems

BizTech Healthcare Solutions, Inc. is a Gold Certified Microsoft Solution Provider with an extensive history of systems integration. Because **ProMed *Stat!*** stores images in standard file formats, it is designed to support and connect with any EHR system you choose. Therefore, as you invest in scanning to address today's challenges, you are protected as you move forward with certified EHR systems in the future.
