The industry recognized PaperStream IP TWAIN and ISIS drivers apply powerful and unique image correction to Fujitsu fi Series scanners, allowing documents to be quickly converted into exceptionally high quality images in small sizes.

PaperStream Capture, included with Fujitsu fi Series scanners, delivers enhanced images to save time and money. Built upon PaperStream TWAIN and ISIS drivers, PaperStream Capture is a simple, front end scanning software.

PaperStream Capture Pro improves business efficiency by offering superior front end capture, image processing, and options for enhanced data extraction and indexing for release.

Connect to the future with seamless integration to popular client systems and applications, including cloud. Central management of user authentication functions, job menus, and other scan settings. Significantly reduce installation and management costs while gaining time-saving user benefits.

Easy NX Connect

Enjoy fast login to scan directly to Active Directory email, folder or popular cloud repositories. Add the convenience of multiple connectivity to the most popular cloud platforms and scan destinations. Work faster with tap-and-scan NFC authentication, one-button scanning operation, and more. Use common NFC ID company badges or inexpensive NFC stickers to login*. Eliminate complicated training with simple login options and pre-set job buttons.

* Supports Felicia, Type-A/Mifare, and Type-B NFC cards and stickers.

Included free with Fujitsu fi Series scanners, Scanner Central Admin makes it easy to manage multiple fi Series scanners over a network from a single point. Monitor scanner status, perform simultaneous driver/software updates, migrate settings, manage users, and more, from one dashboard.

Genuine Fujitsu Service Options

100% US-BASED SERVICE

ScanCare is the Fujitsu premium scanner service offering and one of the most comprehensive service programs in the industry. It combines preventative maintenance, scanner consumables and training with the Basic on-site service option that includes parts, labor and technician travel.

The Basic service option provides peace of mind when downtime isn't an option. This on-site service program includes parts, labor, travel and a cleaning event.

The Depot service program is designed to provide mail-in unit repair service for those customers requiring asset tag tracking or who prefer to retain their existing scanner. Depot service is available for most Workgroup, Departmental, Network and Low-Volume scanners.

Advance Exchange offers whole-unit, next business day replacement for scanner equipment that cannot be repaired through technical support. A replacement unit is shipped by next business day. Includes parts, labor and shipping to and from the customer.

Service for all major brands

MULTI-VENDOR

High-quality service for popular scanner brands

Get 100% US-based Fujitsu quality service for all your scanners.

We expertly service:

- Bowe Bell+Howell
